

**WORKSHOP ON FORESTRY INVENTORY AND FOREST MANAGEMENT PLANNING AT THE
MENDEL UNIVERSITY IN BRNO, CZECH REPUBLIC**

**November 7th to 12th 2016 at the Faculty of Forestry and Wood Technology, Mendel
University in Brno, Czech Republic**

At the workshop, the participating experts from the Georgia as well as from the Czech Republic, have an opportunity to share information on the on ways and during forest inventory and forest management planning – and discuss ways forwards in addressing the problems.

Responding to this possibility, the Faculty of Forestry and Wood Technology, Mendel University in Brno, Czech Republic has considered it pertinent to convene a five-day workshop for the experts involved in field working by project Forest Inventory and Sustainable Forestry Management Planning in the Protected Areas of Tusheti Region, Georgia.

The working language of the workshop will be English and Russian.
